Inclusive admission

UdeM is open to the world of diversity. It's a place where each person's background makes them truly special. Inclusive admission projects recognize the uniqueness of Quebecois students and create cultural richness based on a blend of origins, opinions and expertise.

Undergraduate studies

Undergraduate programs are the first of three levels of university studies. Various types of undergraduate programs offer numerous possibilities, allowing you to tailor your education to your interests. These types of programs differ mainly in their duration and number of credits.

> umtl.ca/types-of-programs

The main unit of measurement is the credit

To obtain a diploma, you must complete the credits associated with a program.

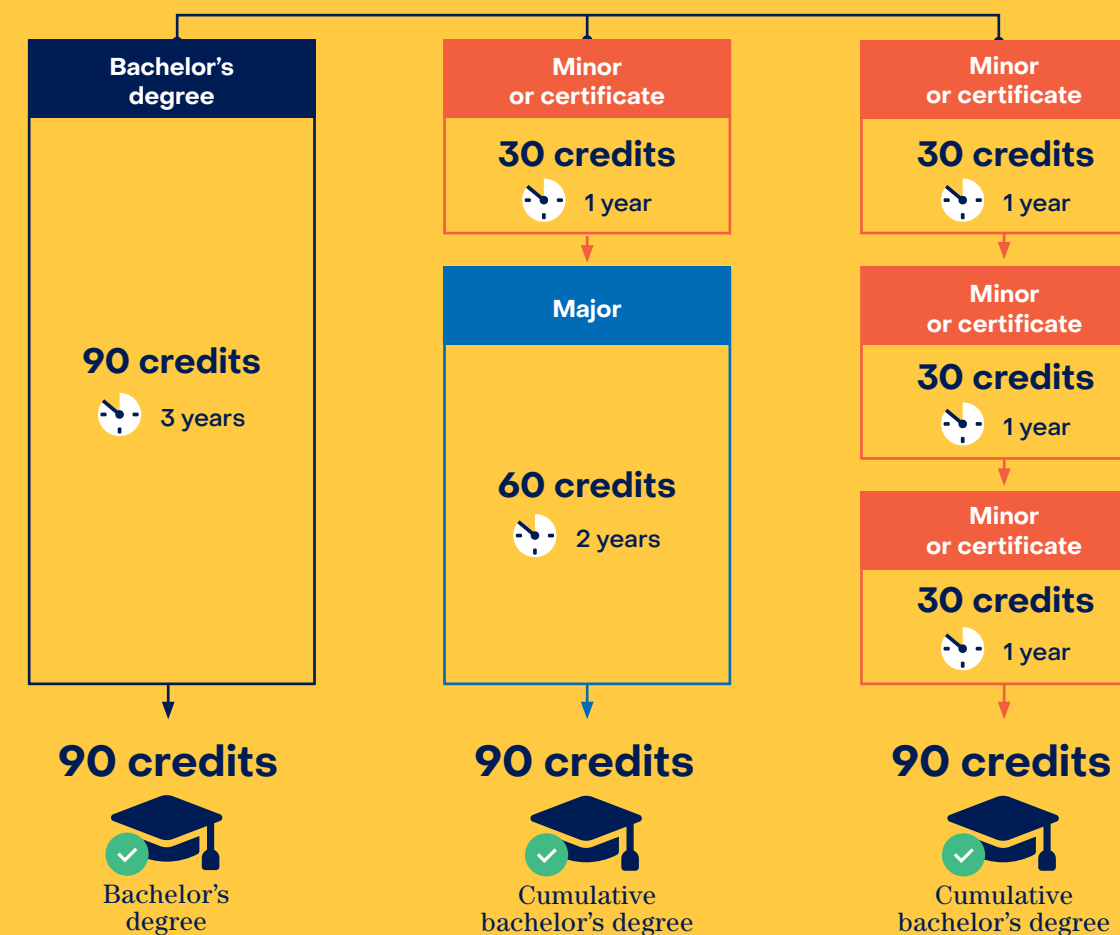

Each level of study is divided into several sessions, each spanning 15 weeks, during which you complete courses and earn credits.

* Variable depending on programs ** Optional for undergraduate programs

The most common undergraduate program is the bachelor's degree, though various combinations of shorter programs can also lead to it.

Short undergraduate programs

Consisting of 15 credits and usually completed in one session, these complementary programs provide with you an introduction to a discipline. Short undergraduate programs cannot be combined to obtain a bachelor's degree.

Important!

Take note of this major difference: At UdeM, a major is a short program consisting of 60 credits, whereas at anglophone universities, a major refers to the main concentration or specialization within a program.

Graduate and postdoctoral studies

UdeM

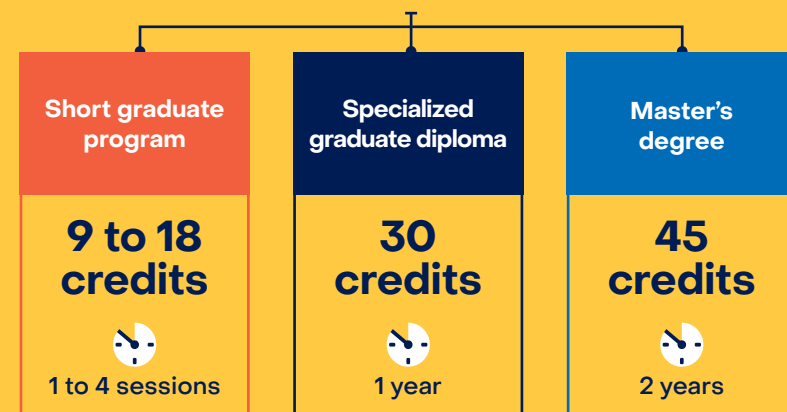

Leading research institution

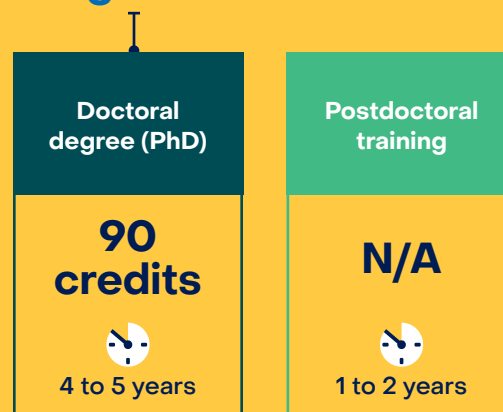

Professional and research programs

Graduate and postdoctoral studies include the 2nd and 3rd levels of study. There are different types of graduate programs, some focused on professional practice and others on research.

Graduate

Postgraduate

Commit to higher education one step at a time!

When these types of programs are offered in the same field of study, it is possible to follow them one after the other.

Do you know there are different types of master's degrees?

Research master's	Deepen specialization and begin scientific research	Thesis	Research supervisor	45 credits
Professional master's - Directed study -	Develop professional aptitudes of future practitioners	Directed study	Research supervisor	45 credits
Professional master's - Internship -	Develop response capabilities of future practitioners	Internship in a practice setting	Internship supervisor	45 credits

Supporting documents required

Some research and professional master's degrees may require supporting documents, such as letters of recommendation or motivation. See program description for admission requirements.

Research supervisor

Finding a research supervisor is a crucial step in developing and carrying out a research project in some graduate programs. Always refer to program description for info!

Your pathway to university

“When I arrived in Montreal, UdeM opened the door to a stimulating environment, passionate professors and endless possibilities.”

Eliot
Undergraduate student in international studies

From classroom to workplace

With its international reputation, a UdeM diploma opens many doors for you. With 450,000 graduates worldwide, Université de Montréal shines in the employability rankings.

Student Services offer a variety of workshops to prepare you for the job market
(resume writing, interview practice, professional integration, etc.)
[› umtl.ca/conseils-carriere \(page in French\)](https://umontreal.ca/conseils-carriere)

Building your career, one step at a time

Choosing a program is an important step, but it doesn't dictate your entire career. Your diploma shouldn't limit you! Instead, think of your degree as a tool that will help you choose a field that aligns with your strengths, values and interests.

Get plenty of practical experience during your studies

Internships represent experiential learning and knowledge sharing situations, while allowing you to gain experience on the field and in the community.

220
programs with internships

10,300
interns per year

\$
Many internships are paid

Put your experience to good use!

Having your previous professional and learning experiences recognized is not only win-win, it's also free! The recognition of prior learning (RPL) process might allow you to accelerate or facilitate your academic career by evaluating your potential and, if applicable, your skills and experience.

[› umtl.ca/recognition-prior-learning](https://umontreal.ca/recognition-prior-learning)

The 7 steps to UdeM

We've made the admissions process as stress-free as possible. Let's walk you through the steps to an academic path that's right for you:

1

Explore

your interest in and affinity for various study fields, plus the possibility of pursuing related disciplines

2

Check

admission requirements, such as prerequisites, tests and interviews, minimums and deadlines, which can vary from program to program

3

Submit

an admission application with one or more program choices then upload the required documents

30 minutes or less to apply

4

Track

your admissions file through communications and notifications to seamlessly follow the progress of your application

5

Accept

your offer of admission, reserve your place and celebrate!

6

Register

for courses according to your program path

7

Get ready

for the new school year with our many integration resources and orientation activities!

Registration ≠ admission

Registration confirms your place in the courses that will make up your schedule based on the program structure. Registering for courses generally occurs in May (for classes beginning in the fall), a step for which you will receive information in due time.

Check out our short videos for more info!

> umtl.ca/videos-inscription (page in French)

Student life

From your very first year, you'll enjoy a lively atmosphere, great camaraderie and a calendar of themed activities to create fond memories. Throughout your time at UdeM, the opportunities for networking, encounters, mutual aid and social life will be with you.

> [umtl.ca/student-services](https://umontreal.ca/student-services)

Orientation week

Discover the world of your university

Student mentorings

Ease into your environment

Linguistic pairing

Open up to the world

4@7s

Connect and network with your peers

Carabins games

See your favourite football, hockey, soccer, rugby or volleyball team in action

Student groups

Can't find a group you want to join? Start your own!

2nd-floor party

Get into the groove at this signature soirée

Student cooking

Stir up some fun by sharing recipes with other cooks

Student bazaar

Shop for used treasures at low prices

Cultural workshops, movie nights, student clubs

Get creative

First year experience

From your first day on campus (or even before!), immerse yourself in the student life you've always dreamed of. Student Services welcome you with workshops, cultural events and a diverse calendar of activities. From programs on CISM radio to articles in Quartier Libre, from talent shows to student gatherings, every day is a new opportunity to create memories.

> [umtl.ca/experience-etudiante](https://umontreal.ca/experience-etudiante) (page in French)

Tuition fees

Quebec offers some of the lowest tuition fees in North America. Tuition fees are established based on your level of study and legal status in Canada.

Estimate the fees you'll incur to better plan your study project

Student funding: Count on us!

UdeM exemption scholarship

This scholarship exempts tuition fees normally charged to international students (except French and French-speaking Belgian students). No need to fill out a form: you become eligible simply by submitting your admission application.

> [umtl.ca/international-scholarship](https://umontreal.ca/international-scholarship)

Scholarships directory

This resource is a goldmine of information for navigating through all the available bursaries, scholarships and grants, and finding the one that matches your profile.

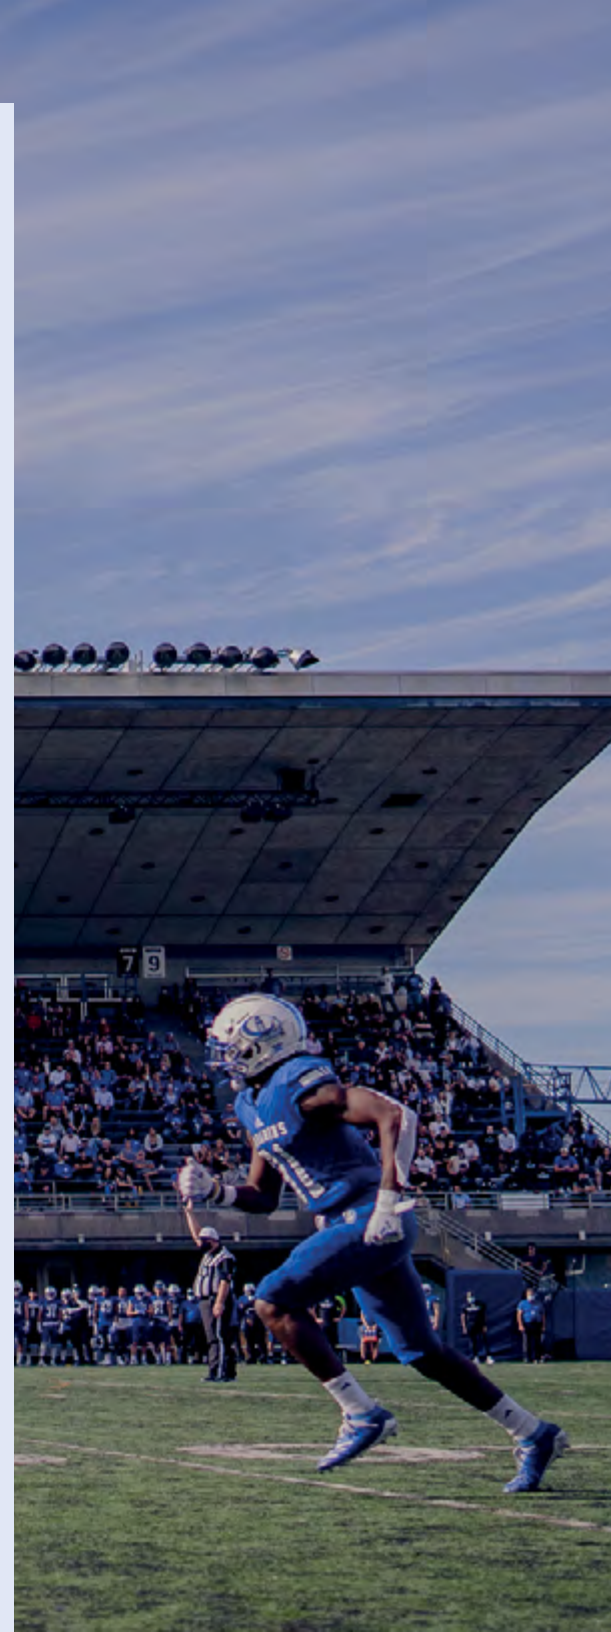

> [umtl.ca/bourses](https://umontreal.ca/bourses) (page in French)

Student jobs

To work while studying, you must ensure that your study permit is valid and that you meet the requirements for working on or off campus. If you are authorized to work off campus, you will be able to devote a maximum of 20 hours per week during the sessions of your study program. During the holidays scheduled in the school calendar, you can work full time!

> [umtl.ca/emploi-etudiant](https://umontreal.ca/emploi-etudiant) (page in French)

Housing

There's nothing like home sweet home!

ZUM residences in the heart of the campus

Just a stone's throw from the metro, classes, bike paths, university services and sports centre, cultivate your community spirit in affordable university residences that benefit from around-the-clock security.

› zumresidences.ca (page in French)

1,123

rooms

2

towers, one of which is women only

\$450

Per month for a studio apartment

8 months

duration of lease (furnished, heated, lit and connected)

March 1st

Reserve quickly, places are limited!

Living off campus

Off-Campus Housing offers a wide range of resources that will help you find your perfect home away from school.

› umtl.ca/logement-hors-campus (page in French)

Immigration procedures

If you don't have Canadian citizenship or permanent residence, you must obtain the necessary authorizations to study at UdeM before your arrival in Canada:

Certificat d'acceptation du Québec (CAQ)

issued by the Ministry of Immigration, Francization and Integration (MIFI)

Study permit

issued by Immigration, Refugees and Citizenship Canada (IRCC)

Entry visa

issued by IRCC or an electronic travel authorization (eTA) depending on your situation

Do you know UdeM international?

This is your go-to resource for step-by-step guidance in immigration procedures, smoothing your way to UdeM.

A day in the life of a student

Follow the daily routine of Chamira, an undergraduate student in mathematics and economics

7 a.m.

Wake-up

7:30 a.m.

Workout at the CEPSUM

Good to know! All members of the UdeM community enjoy access to the Université de Montréal sports complex and benefit from great discounts on other activities including the gym.
> cepsum.ca (page in French)

8:30 a.m.

Microeconomics

10 a.m.

Coffee break at the Acquis de Droit student café

10:15 a.m.

Back to class

12 p.m.

Lunch in the sun on the Place Publique esplanade

1 p.m.

No class, off to the Library of Letters and Human Sciences to study linear algebra

4 p.m.

Relaxing with the student association
📍 At La Brunante!

8 p.m.

Return home

“I chose UdeM for its services, proximity and campus life.”

Chamira

Undergraduate student in mathematics and economics

Class schedules

Usual class duration:
3 hours

Usual class frequency:
1 time/week for
15 weeks

Usual class times:
▪ 8:30 a.m. to 11:30 a.m.
▪ 1 p.m. to 4 p.m.
▪ 4 p.m. to 7 p.m.
▪ 7 p.m. to 10 p.m.

Usual course load per week:
▪ 3 hours in class
▪ 6 hours of homework
▪ Total of 9 hours

The fun doesn't stop here!

Campus life

The university of health and well-being

A veritable city within a city, the mountain campus is rooted in a bustling neighbourhood! Services, health clinics, activities and amenities are all within easy walking or cycling distance. This ecosystem of resources – most of them offered by and for the university community – is a vibrant place to reach your full potential and connect with like-minded peers.

Our Laval, Brossard, Saint-Hyacinthe and MIL campuses, near major transportation hubs, are an extension of the main campus.

Although Université de Montréal is a French-language University, some of our research departments are open to creating a bilingual environment for students in graduate-level programs. These departments are aware of the importance of bilingualism in order for graduate students to succeed in their research careers.

Notes

UdeM glossary: Your quick guide to key terms

Access code

Your access code is a unique identifier provided by UdeM that allows you to securely access IT platforms and tools. It can be formed from the letter p followed by seven digits or from two letters followed by 5 digits.

Admission

Step which consists of submitting an application to a study program.

Registration

Step which consists of registering for the courses that will constitute your schedule for the intended session.

Session

Also known as a semester. Spanning the 12 months of the year, the academic year is divided into three sessions of approximately 15 weeks each:

Fall

→ September 1 to December 31

Winter

→ January 1 to April 30

Summer (optional for undergraduates)

→ May 1 to August 15

Note that official course start dates may vary.

Student Centre

Also known as your Centre étudiant. This online platform allows you to track your admission application after submitting it.

Studying full-time

At the undergraduate level, you study full-time if your course registration totals 12 credits or more for a session. At the graduate level, course registration must total 9 credits or more in the fall or winter and 6 credits in the summer.

Studying part-time

At the undergraduate level, you study part-time if your course registration totals 12 credits or more for a session. At the graduate level, course registration must total less than 9 credits in the fall or winter and less than 6 credits in the summer.

UNIP

Combined with your access code, this password allows you to securely access IT platforms and tools.

Visitor account

If you don't have a UdeM account, this temporary account allows you to submit an application to a study program and access the Centre étudiant.
